

Friendly paw's club

Hello fellow cat owners, with the raising discussion about the objectionable reality of declawing going around. We hope to offer an alternative selection to our feline family members. Friendly paw's club, is an application of rubber caps over the cat's nails. These caps normally need to be replaced monthly. The caps can be placed on your cat during a quick appointment, no need to leave your baby at the clinic. nonetheless that is always an option, we do love our four-legged visitor's!!

Friendly Paw CLUB

We offer a options to declawing your cat.
