

New additions!

Adding a new pet, be a kitten or puppy to your family is a big decision. In effort to help you and your new addition settle in. We are readily available to help answer all your questions. The well-being of these babies is our top priory. Here at our clinic, we offer vaccination packages for an easier way of preparing for your new additions. These packages are offered at a discounted rate, which can be split into two equal payments. The packages cover the required

vaccines, along with health exams until sixteen weeks of age. These packages help disregard any worry of the cost causing a delay in your new additions' wellness. Puppies will receive their first dose of heartworm prevention. Kittens and puppies will also receive a dose of flea and tick preventative. More details are available on our webpage or with the veterinarian and a technician.
